

Woman Legislator to Ask Laws Affecting Children's Welfare

For the first time in the history of the state women will have a voice in framing New York's laws when the legislature convenes January 1. Two women will occupy seats in the lower house, Mrs. Mary M. Lilly, democrat, who defeated the republican man, and Mrs. Ida B. Sammis, republican, who defeated the democratic candidate.

Mrs. Lilly, who is a lawyer, says in regard to her new duty:

"It is not my purpose to go to Albany to reconstruct the world, changing around like a bull in a china shop. Naturally there are a number of matters in which I am vitally interested and in which I hope to have the cooperation of fellow members and home folk."

Above everything, I want to do what I can toward solving the problem of reassembling the returned soldier, especially the casuals. The program of the federal government must have the support of the states and of individuals to make it really effective.

"These men must not be permitted to become discouraged. They must be fitted to resume their place in the world and the jobs must be found for them."

Among the many things which Mrs. Lilly declares will have her attention are all measures which affect the welfare of women and children. She expects to introduce a bill prohibiting capital punishment for minors, another which will give to the judge of the

children's court the power to appoint as a guardian for children, who are shown to have improper guardianship and she will support any bills which deal with minimum wage and equal pay for equal work.

How to Make a
Gray Hair Remedy

Mrs. Mackie, the well known New York actress, now a grandmother, and whose hair is still dark, recently made the following statement: "Gray streaked or faded hair can be immediately turned black, brown or light brown, whichever shade you desire, by the use of the following simple remedy that you can make at home."

"Merely get a small box of Orle powder at any drug store. It costs very little and no extras to buy. Dissolve it in water and comb it through the hair. Full directions for mixing and use come in each box. One box will last you for months."

"It is safe, it does not rub off, is no sticky or greasy, and leaves the hair fluffy. It will make a gray haired person look many years younger."

By The Associated Press.
WASHINGTON, Jan. 7.—Immediate establishment of a league of nations with Germany as a member, was urged in the senate today by Senator McCumber of North Dakota, the first republican member of the senate to voice approval of President Wilson's proposal for such an organization.

The first clause of a compact for such a league, Senator McCumber said, should declare "that each independent nation of the world as it shall exist at the time this compact shall be executed, has the right to live and work out its own destiny free from an opposing danger of any mighty military neighbor."

"With such a solemn compact of nations, executed by all the great nations of the world," said the North Dakota senator, "the danger of any great war would be pressed far into the realm of impossibility. Does anybody believe that if such a great international agreement had been in existence prior to 1914, even Germany, with her autocratic and irresponsible government would have dared break her compact?"

McCumber said that each independent nation of the world as it shall exist at the time this compact shall be executed, has the right to live and work out its own destiny free from an opposing danger of any mighty military neighbor.

"The allies," he said, "may deem this necessary to place Germany in a position where the wicked teachings of her military and political rulers which brought on this war cannot in the future influence any great portion of Europe and thus re-endanger its peace and safety."

McCumber said that each independent nation of the world as it shall exist at the time this compact shall be executed, has the right to live and work out its own destiny free from an opposing danger of any mighty military neighbor.

TRANSPORT BRINGS
WOUNDED SOLDIERS

NEW YORK, Jan. 7.—The United States transport Louisville arrived in port today from France carrying 964 troops and 573 civilians. Of the

troops 878 are negroes, comprising cavalry companies Nos. 108, 109, 1058, 1060, 1070, 1071 and a headquarters consisting of four officers. These troops will be sent to Camp Mills. Thirteen casual officers and seventy-three sick and wounded also were aboard.

Not long ago the navy ordered 200,000,000 yards of cotton gauze for surgical purposes, enough to reach from Washington to the battlefront in France and back seventeen times or to lap the earth more than four times.

The Piano Your Child Uses
